Skills

Ruby, HTML, Responsive design, JavaScript, CSS, TailwindCSS, Ruby on Rails, C++, C, Linux, SQL

Education

Seneca College May 2020 - Present
Computer Programming & Analysis **GPA 4.0/4.0**

Projects

Social Network for Churches - [Namu](#) (Nov 2020 - Present)

- I am part of a small core team building a social network app for churches (already launched to my church)
- The app is built with *Ruby on Rails*, *PostgreSQL*, *TailwindCSS*, and *StimulusJS*
- Current [features](#) include: invite-only authentication, authorization levels through permissions, search engine for other church members, editing own profile, and tracking own donations
- I am working full-stack, but especially creating mobile-first (*responsive*) UX flows within the app

Portfolio Website - [link](#) (Jan 2021)

- Built with GatsbyJS and React

Personal Website Experiment - [link](#) (Dec 2020)

- This website is built with HTML, CSS, and JavaScript
- I did not use any frameworks, in order to **learn the fundamentals of the languages and experiment with limitations**
- Focused on front-end and UI using Javascript to give animated effects

Movie Website - [link](#) (Nov 2020)

- A school project built with HTML, CSS, and Javascript, emulating the [AMC](#) movie website
- Implemented responsive design, form validations, carousel effects with pure CSS and JS without use of frameworks

Work Experience

- Rice House (Seneca College Newnham Campus) Kitchen assistant (Sep - Dec 2019)

Awards

- Seneca President's Honour List (Fall 2020 & Summer 2020)
- Toronto Korean Presbyterian Church Scholarship 2020
